

12th & 13th December 2023

NEWBORN SCREENING FOR SMA

STATE OF THE ART

In 2018, Spinal muscular atrophy (SMA) was included in the Recommended Uniform Screening Panel in the USA.

Since then, both in Europe, the USA and Australia, countries and states have begun to evaluate, operate or plan newborn screening programmes for SMA.

On December 12th and 13th 2023 we are pleased to host a virtual meeting of leaders in the field from around the world to discuss progress in programs, laboratory techniques and ELSI aspects of SMA screening.

The meeting will begin each day at 14.00 (UK time) and will close at around 18.00 (UK time). It will include live interaction and Q&A and attendance certificates of Continuing Professional Development will be issued to registrants

The **registration fee** for the two day meeting is:
EARLY BIRD (until 20.10.2023): EUR 35 (EUR 25 for ISNS members).
Full registration: EUR 45 (EUR 35 for ISNS members).

NOTE: If you become a member of ISNS you will pay EUR 15 for the first year of membership instead of EUR 35.

Register at:

<https://membership.isns-neoscreening.org/conferences>
and choose 'ISNS-Virtual meeting on SMA-screening'.

After filling in the on-line form, please complete your registration by bank transfer payment to the account:

The Int. Soc. Neo. Screening Congress, IBAN: NL25 RABO 0117 6902 87
SWIFTcode: RABONL 2 U,

Rabobank Rijn en Heuvelrug, P.O.Box 82, 3700AB ZEIST, The Netherlands.

If you prefer online payment by Mastercard or VISA please send an email to office-manager@isns-neoscreening.org to receive a payment link by email.
